2020 Medicare Parts A & B Premiums and Deductibles

On November 8, 2019, the Centers for Medicare & Medicaid Services (CMS) released the 2020 premiums, deductibles, and coinsurance amounts for the Medicare Part A and Part B programs.

Medicare Part B Premiums/Deductibles

Medicare Part B covers physician services, outpatient hospital services, certain home health services, durable medical equipment, and certain other medical and health services not covered by Medicare Part A.

Each year the Medicare premiums, deductibles, and copayment rates are adjusted according to the Social Security Act. For 2020, the Medicare Part B monthly premiums and the annual deductible are higher than the 2019 amounts. The standard monthly premium for Medicare Part B enrollees will be \$144.60 for 2020, an increase of \$9.10 from \$135.50 in 2019. The annual deductible for all Medicare Part B beneficiaries is \$198 in 2020, an increase of \$13 from the annual deductible of \$185 in 2019.

The increase in the Part B premiums and deductible is largely due to rising spending on physician-administered drugs. These higher costs

have a ripple effect and result in higher Part B premiums and deductible.

From day one, President Trump has made it a top priority to lower drug prices. Currently, for Part B, the law requires CMS to pay the average sales price for a drug and also pays physicians a percentage of a drug's sale price. This incentivizes drug companies to set prices higher and for physicians to prescribe more expensive drugs – because that leads to a higher Medicare payment. Through the President's drug pricing blueprint, the Trump Administration is working to lower drug prices in Medicare Part B drugs.

CMS is committed to empowering beneficiaries with the information they need to make informed decisions about their Medicare coverage options, including providing new tools to help them make those decisions through the eMedicare initiative. In addition to the recently released premiums and cost sharing information for 2020 Medicare Advantage and Part D plans, we are releasing the premiums and cost sharing information for Fee-for-Service Medicare, so beneficiaries understand their options for receiving Medicare benefits. As previously announced, as a result of CMS actions to drive competition, on average for 2020, Medicare Advantage premiums are expected to decline by 23 percent from 2018, and will be the lowest in the last thirteen years while plan choices, benefits and enrollment continue to increase. Premiums and deductibles for Medicare Advantage and Medicare Part D Prescription Drug plans are already finalized and are unaffected by this announcement.

Medicare Part B Income-Related Monthly Adjustment Amounts

Since 2007, a beneficiary's Part B monthly premium is based on his or her income. These income-related monthly adjustment amounts (IRMAA) affect roughly 7 percent of people with Medicare Part B. The 2020 Part B total premiums for high income beneficiaries are shown in the following table:

Medicare Part A Premiums/Deductibles

Medicare Part A covers inpatient hospital, skilled nursing facility, and some home health care services. About 99 percent of Medicare beneficiaries do not have a Part A premium since they have at least 40 quarters of Medicare-covered employment.

The Medicare Part A inpatient hospital deductible that beneficiaries will pay when admitted to the hospital will be \$1,408 in 2020, an increase of \$44 from \$1,364 in 2019. The Part A inpatient hospital deductible covers beneficiaries' share of costs for the first 60 days of Medicare-covered inpatient hospital care in a benefit period. In 2020, beneficiaries must pay a coinsurance amount of \$352 per day for the 61st through 90th day of a hospitalization (\$341 in 2019) in a benefit period and \$704 per day for lifetime reserve days (\$682 in 2019). For beneficiaries in skilled nursing facilities, the daily coinsurance for days 21 through 100 of extended care services in a benefit period will be \$176.00 in 2020 (\$170.50 in 2019).
